**Subject:** High-dim deliverables

Dear Wayne,

As discussed in the progress meeting, please find below git tags for the deliverables so far:

D1:  
<https://gitlab.nektar.info/ccantwel/nektar/-/tags/uksaea%2Fhigh-dim%2Fd1>  
(I previously gave Ed a link to a MR, but the MR has evolved, so better to use a tag) The TensorRegions library code is in library/TensorRegions.

D2: <https://gitlab.nektar.info/ccantwel/nektar/-/tags/uksaea%2Fhigh-dim%2Fd2>  
The Projection demo code (proxy-app) is library/Demos/TensorRegions/Project.cpp

Kind regards,  
Chris
